# Chapter 5 – Recognition of the status of serious illness (Chapter 5 of Title III of the General Implementing Provisions)

In accordance with Article 72(1) of the Staff Regulations and Article 20(6) of the joint rules, costs shall be reimbursed in full in the case of tuberculosis, poliomyelitis, cancer, mental illness and other illnesses recognised by the appointing authority as of comparable seriousness after consulting the Medical Officer of the Settlements Office.

The Medical Officer's opinion shall be delivered on the basis of general criteria laid down in the general implementing provisions after consultation of the Medical Council.

However, for the purpose of protecting the financial stability of the Joint Sickness Insurance Scheme and respecting the principle of social security cover forming the basis for Article 72 of the Staff Regulations, special ceilings for reimbursing certain benefits may in exceptional circumstances be set in the general implementing provisions.

In the case of benefits for which no reimbursement ceiling has been set, the proportion of the costs deemed excessive by comparison with normal costs in the country where the costs have been incurred shall not be reimbursed. The portion of the costs deemed excessive shall be determined on a case-by-case basis by the Settlements Office after consulting the Medical Officer.

### <u>Special rules for recognition of the status of serious illness (Chapter 5 of Title III of the General Implementing Provisions)</u>

#### L. <u>Definition</u>

Serious illnesses include tuberculosis, poliomyelitis, cancer, mental illness and other illnesses recognised by the appointing authority as of comparable seriousness.

Such illnesses typically involve, to varying degrees, the following four elements:

- a shortened life expectancy
- an illness which is likely to be drawn-out
- the need for aggressive diagnostic and/or therapeutic procedures
- the presence or risk of a serious handicap.

#### What is covered

The 100% reimbursement rate applies to:

- medical costs which appear, in the light of current scientific knowledge, to be directly linked to the diagnosis, treatment or monitoring of the development of the serious illness, or any complications or consequences it causes:
- costs eligible for reimbursement associated with a dependency caused by the serious illness.

#### . <u>Procedures</u>

Applications for recognition of serious illness must be submitted in a sealed envelope addressed to the Medical Officer and be accompanied by a detailed medical report. For an initial application, the report must include:

- the date of the diagnosis
- the exact diagnosis
- what stage the illness is at, and any complications
- the treatment required.

The 100% cover for expenditure related to serious illness is granted from a start date (the date of the medical certificate) to a date in the future, which cannot be more than 5 years.

The Settlements Office will warn the member in due course when the cover is about to expire, in order to give him or her time to submit an application for the cover to be extended, accompanied by a medical report that explains:

- How the illness has developed;
- the treatment and/or care still required.

The decision granting 100% cover is reviewed regularly on the basis of up-to-date information on the person's state of health and scientific advances, to reassess, if necessary, the extent of the cover.

### 4. <u>Backdating</u>

As a rule, 100% cover is granted only from the date of the medical certificate supporting the application for recognition of serious illness.

However, on the basis of a reasoned request from the member indicating the treatment in question as entered on his or her account statements, the 100% cover may be backdated, after consulting the Medical Officer.

The backdating may not, however, extend beyond the time limit for reimbursement laid down in Article 32 of the joint rules.
